

WAYNE STATE UNIVERSITY

Academic Staff Professional Development Program

As defined by the WSU/AAUP-AFT Agreement, a fund of \$30,000 is available for an Academic Staff Professional Development Program designed, conducted, and evaluated by the Academic Staff Professional Development Program Committee. The Academic Staff Professional Development Program Committee provides opportunities for academic staff members to enhance their professional development through various programs, e.g., support of both on-campus and off-campus workshops, seminars, and conferences, awards, and a travel fund program that encourages staff to present at and to attend national, regional, and local conferences. Award programs may include the following:

Academic Staff Distinguished Service Award

Annually, the Professional Staff Professional Development Program Committee recognizes a member of the academic staff for accomplishments in the areas of service to students, the University, and/or community. Academic staff, faculty, students, and administrators may make nominations.

Academic Staff Professional Achievement Award

The Professional Staff Professional Development Program Committee presents an award each year to an academic staff member for accomplishments in professional organizations, presentations, and/or publications. Academic staff, faculty, students, and administrators may make nominations.

For additional information, contact the chair of the Academic Staff Professional Development Program Committee.
